PROFESSIONAL SUMMARY

Full Stack Developer with hands-on production experience building scalable web applications and geospatial analytics platforms. Proficient in React.js, Node.js, MongoDB, and SQL, with practical exposure to ML-based signal analysis in the telecom domain. Promoted from Intern to full-time Developer at Vinfocom IT Services after consistently shipping production-ready features. Strong problem-solver focused on performance, scalability, and clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Java, SQL

Frontend: React.js, Redux, Tailwind CSS, Next.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Heroku, Maps API

Methodologies: Agile, SDLC, Code Review, CI/CD Basics

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jan 2026 – Present

Vinfocom IT Services Pvt. Ltd.

Ghaziabad, India

- Promoted to full-time Full Stack Developer after internship, based on consistent delivery of production-grade features on the telecom analytics platform.
- Own end-to-end development of geospatial visualization modules used to monitor signal quality and telecom logs across multiple regions.
- Design and build RESTful APIs connecting React.js dashboards with Node.js/Express backend services, and optimize MongoDB/SQL queries to improve data retrieval efficiency at scale.
- Collaborate with cross-functional engineering teams in an Agile environment to plan sprints, review code, and ship features on schedule.
- *Technologies: React.js, Node.js, Express.js, MongoDB, SQL, Maps API, Machine Learning*

Full Stack Developer Intern

Oct 2025 – Jan 2026

Vinfocom IT Services Pvt. Ltd.

Ghaziabad, India

- Contributed as a Full Stack Developer on a telecom analytics platform, building an interactive map-based visualization module for telecom logs and signal data across locations.
- Developed ML-based analytics workflows to evaluate signal strength at specific geographic points, and built RESTful APIs to move data between frontend dashboards and backend services.
- Processed and visualized large volumes of telecom log data to generate actionable insights for signal quality assessment.

PROJECTS

Referral Landing Page (E-commerce Full-Stack App)

- Built a referral-based system with user invitations and tracking, using a scalable Node.js/Express backend with SQL-based data handling and a responsive React.js frontend.

Social Media Backend (Production-Grade APIs)

- Engineered backend services for posts, comments, media uploads, and playlists; optimized MongoDB queries with aggregation pipelines for scalable, high-performance APIs.

Real-Time Chat Application

- Built a real-time chat app with an optimized database structure for fast message retrieval and toast-based UX feedback. *(React.js, Node.js, Express.js, MongoDB, Vite)*

EDUCATION

Ajay Kumar Garg Engineering College , Ghaziabad

May 2026

B.Tech. in Computer Science & Engineering

CGPA: 7.45

CERTIFICATIONS

Web Development Workshop – Microsoft Ambassador Program | Web Development Course – Simplilearn | Volunteer – Atal Generative AI Development Program
